

CLEANLINESS DRIVE

Cleanliness is next to Godliness. To strike a chord for cleanliness and hygiene, Cleanliness drive was conducted at BIS by KG II students under the able guidance of Ms Deepa, Ms Sangamithra and Ms Vaishali. They shared the need to eat healthy food and keep one clean & fit. They created awareness about healthy living as they educated their juniors by sharing their thoughts and through the use of visual images. The students enjoyed the Health & Hygiene parade around the school and made the teachers and students of the school aware about healthy eating and hygiene habits. This activity helped in sensitizing children about protecting the environment and following the best hygiene practices as it is two-thirds of health. This activity also helped in boosting their morale and in building their confidence.
